

THE STEP-UP DIFFERENCE

For students that wish to take their playing to the next level, Step-Up instruments offer refined sound, intonation, feel, and flexibility. But more importantly, Step-Ups are simply more fun to play!

Better Sound

Step-up saxophones come with improved neck designs to deliver a solid core sound. Meanwhile, changes to the body- such as annealing and post-to-rib construction- allow the instrument to resonate without restriction.

Help with Fast Passages

Step-Up saxophones will offer a variety of improvements to the keywork. Additional keys may include:

- High F#
- Improved B-C# mechanism
- Added trill keys

The designs of the keys themselves are also upgraded. From improved key pads to specialized springs, these additions make navigating fast musical passages a breeze.

Our Bravo! Rent-to-Own program makes it easy to upgrade with low monthly payments and optional Maintenance & Replacement protection for peace of mind. Up to eighteen (18) months of equity may roll over from a current beginner rental. More financing options are also available; see store for details.

Instant Response

Advancing players will appreciate how quickly the instrument transforms air flow into sound. This is a result of the hand-made construction and extreme attention to detail in the instrument's design.

Effortless Pitch Control

Step-Up saxophones will more naturally play in tune due to upgraded precision when creating the toneholes. This allows the player to focus more on what really matters—the music.

Improved Projection

Bells will resonate with added projection thanks to the accuracy in which the thickness tapers. And although the hand-carved bell engravings don't alter the sound of the instrument, they add a beautiful cosmetic touch that sets each instrument apart.

Woodwind & Brass Step-Up Sale

The Music Shoppe of Springfield
November 1 - November 8

The Music Shoppe of Normal
